Detailed Proposal for Zero load Shedding Thane, Mulund & Bhandup Area (TMB)

Presently there is a short fall of 86 MW in Thane, Mulund & Bhandup Area (TMB). Also the aggregate technical & commercial losses are in the range of 19-20%. This has resulted in a load shedding of approximately 2 hours in the morning & evening in the month of December. With on set of summer this will reach between 3to 4 hours. If this shortfall of MW met through some other source then in that case then there will be a zero load shedding in TMB area.

TSSIA has contacted M/s. TATA Power Trading Ltd for the purposes of sourcing 90 MW of power. At Rs. 6.50- 7 per unit round the clock power (RTC) is available. This power will be available for 4months i.e. (March to June 2008). TMB region does not require round the clock. MSEDCL was contacted on this issue. If TMB requires 8 hours of power then MSEDCL is prepared to buy power for rest 16 hours. The buying rate would be prevailing rate of purchase. It means TMB region will have to pay extra cost for 16 hours i.e. Rs. 7 - Rs. 3= Rs. 4

For 4 months the out flow will be as follows:

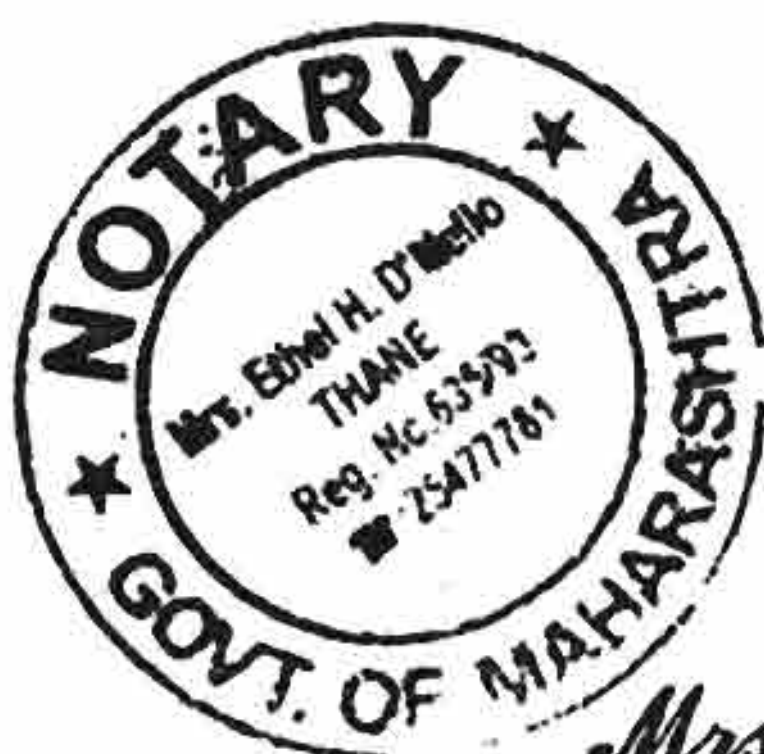

Rs. 7 for 8hours of supply Plus Rs. 4 for 16 hours supply. All the consumers except below the poverty line will pay extra cost towards this supply. This cost will be spread period of six months, hence it will be approximately Rs. 0.62 i.e 62 paise. In case of Pune Model. The additional supply of power is from Captive Generation. However in this model the additional supply is from Independent Power Producer (IPP) who is from out side State.

The salient features are: -

- Zero Load shedding at the cost of 62 paise extra for six months.
- Power purchase from IPP out side Maharashtra .
- Power during peak loads purchase by the consumers at full cost. Off peek hours of power paid for by the consumers at differential rate.
- MSEDCL will be facilitator. TATA Power Trading will be the trader for sourcing this power.

Prayer:

Thane, Mulund & Bhandup Area (TMB) consumers may be allowed at Extra Cost Zero load Shedding.

Filing No.
Case No.

IN THE MATTER OF
(Continuous Electricity Supply for Thane, Bhandup & Mulund Region similar to Pune Model.

AND

IN THE MATTER OF THANE SMALL SCALE INDUSTRIES ASSOCIATION
TSSIA HOUSE, Plot No. P- 26, Road No16/T,
Wagle Industrial Estate, Thane 400604

Fact of the case/Petition be stated in short

Pune Model of continuous is in existence. We are seeking the same for Thane, Bhandup & Mulund region.

Submission / Ground in support of the case.

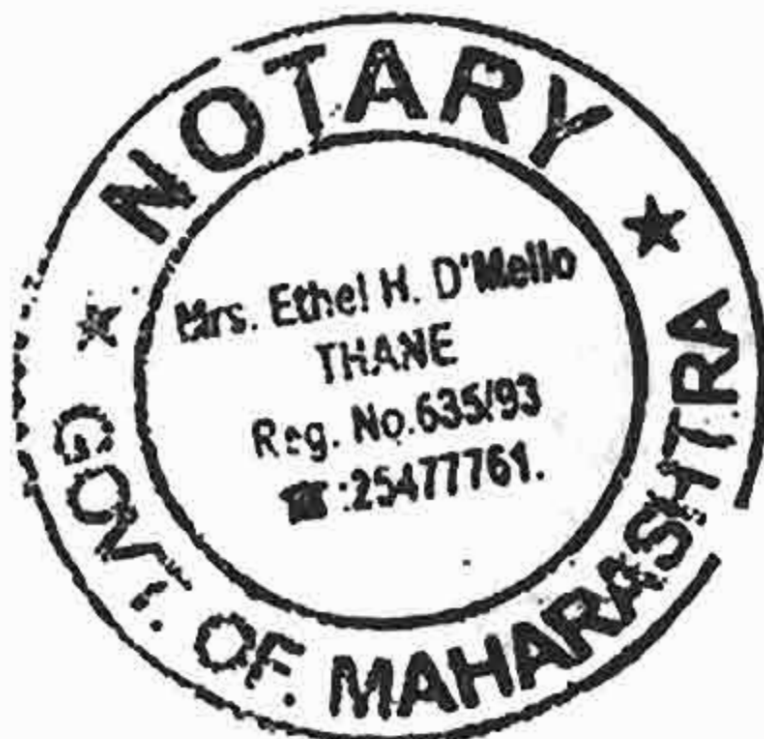

- 1) Existence of similar of Model for two years
- 2) Electricity Act Section 42.4: the state Commission permits a consumer or class of consumers to receive supply of electricity from a person other than the distribution licensee of his area of supply, such consumer shall be liable to pay an additional surcharge on the charges of wheeling, as may be specified by the State Commission, to meet the fixed cost of such distribution licensee arising out of his obligation to supply.

Relief clause: Relief prayer made in the Petition be stated shortly and specifically.

Allow Thane, Bhandup, Mulund consumer to buy additional electricity through MSEDCL from a source out side Maharashtra. Also pay for this Additional Electricity through additional surcharge.

Place: Thane
